

01 Home

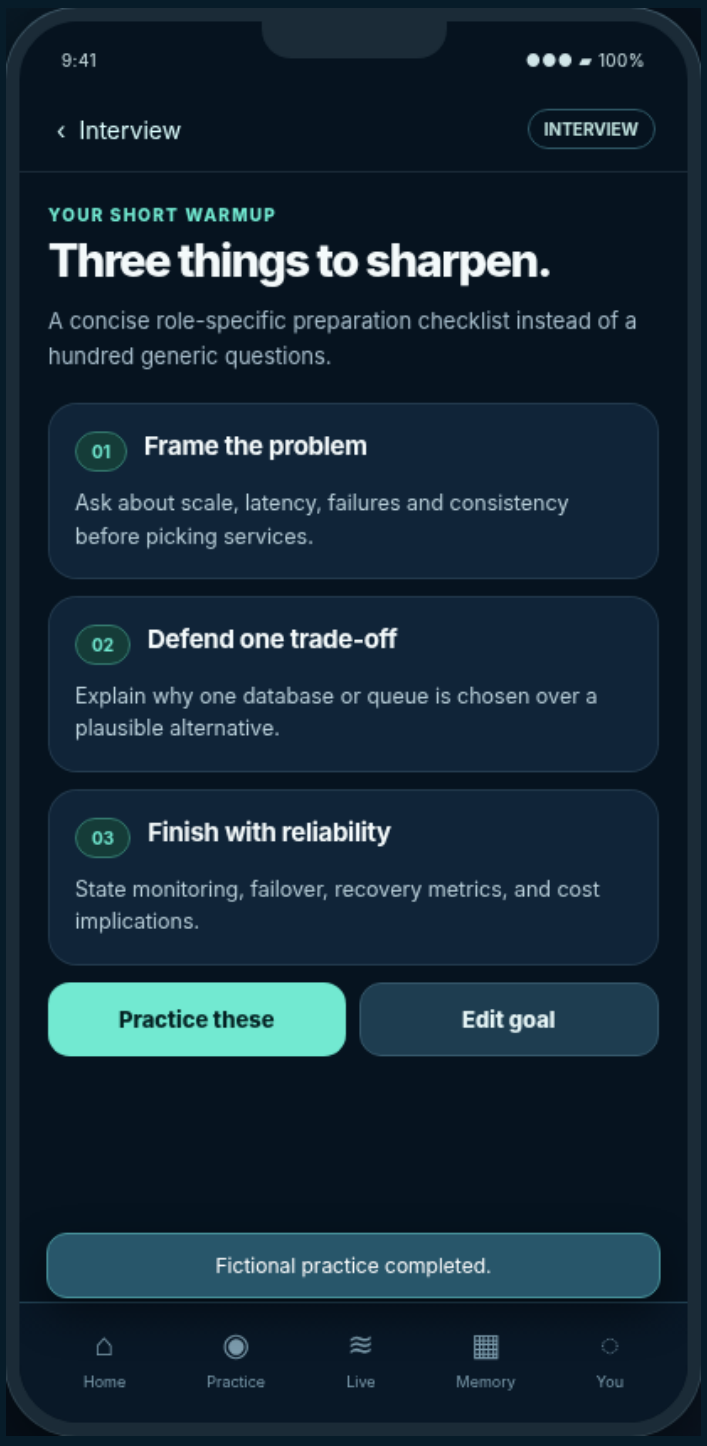

Primary CTA first. Goal context, not feature overload.

02 Interview goal

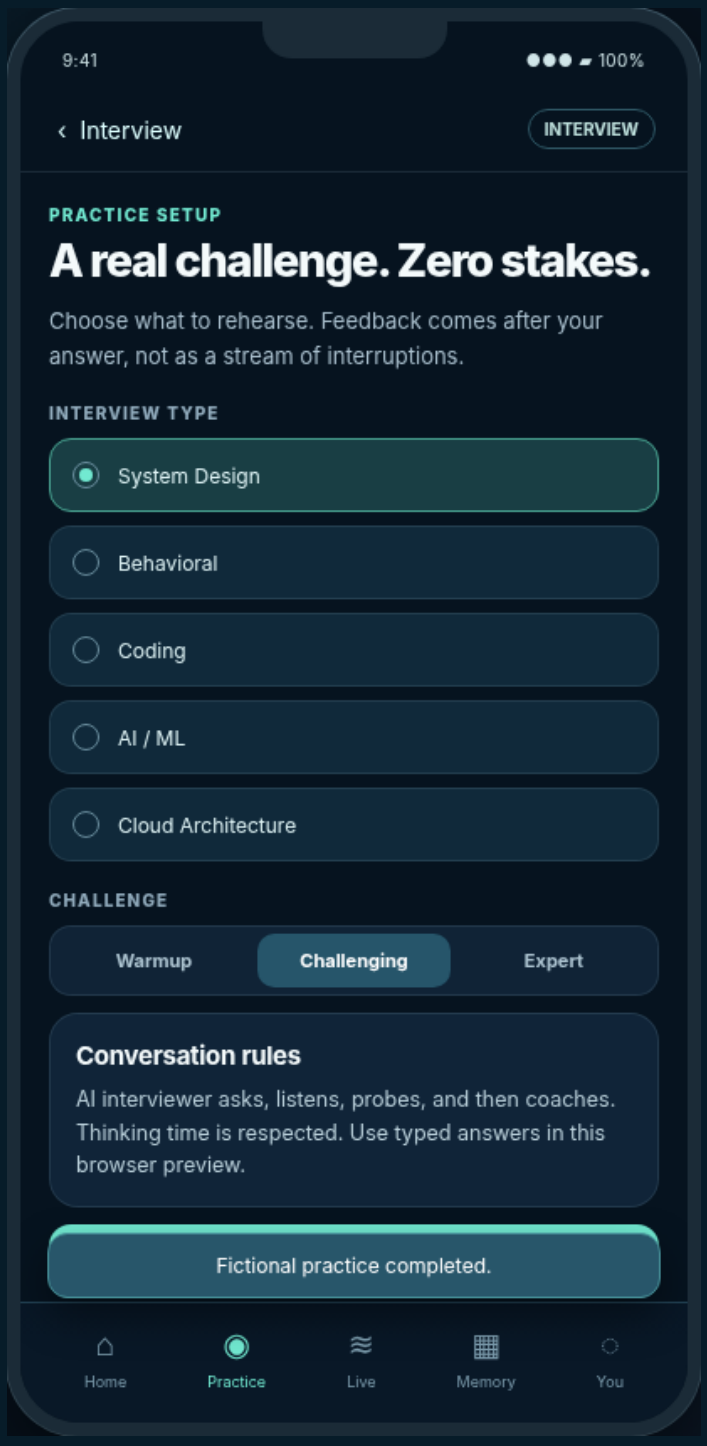

Edit career goal without unnecessary personal data.

Visual interaction reference, not a production mobile application or live audio capture.

03 Preparation

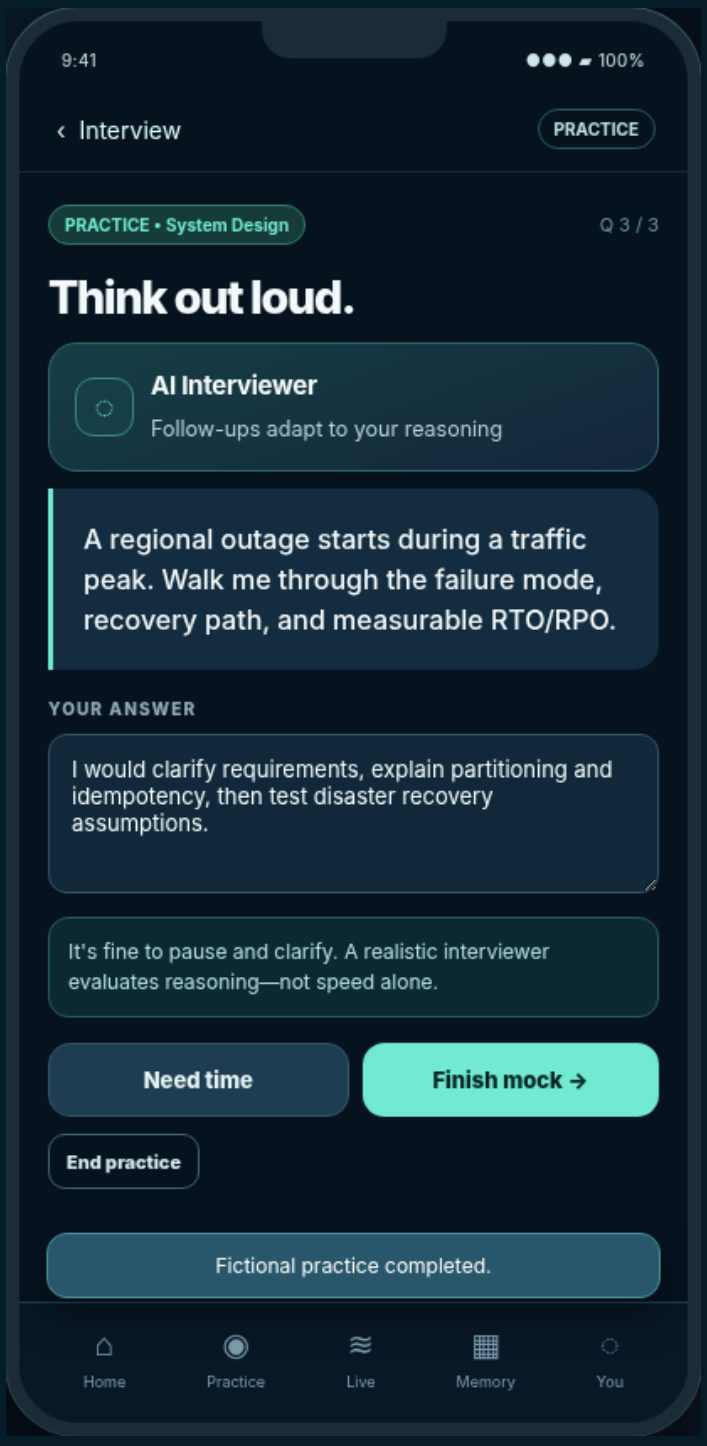

Only three high-value warmup points.

04 Mock configuration

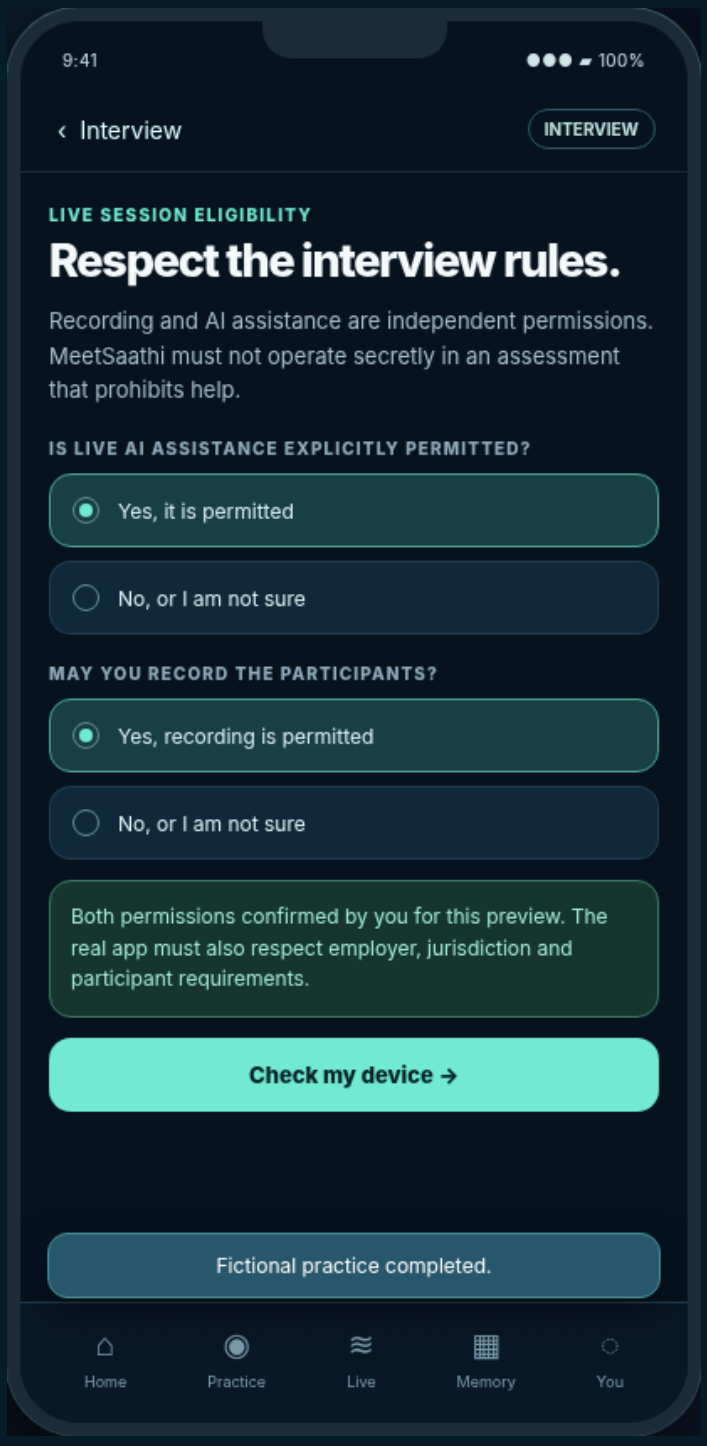

Role, difficulty and coaching timing are explicit.

Visual interaction reference, not a production mobile application or live audio capture.

05 AI mock interview

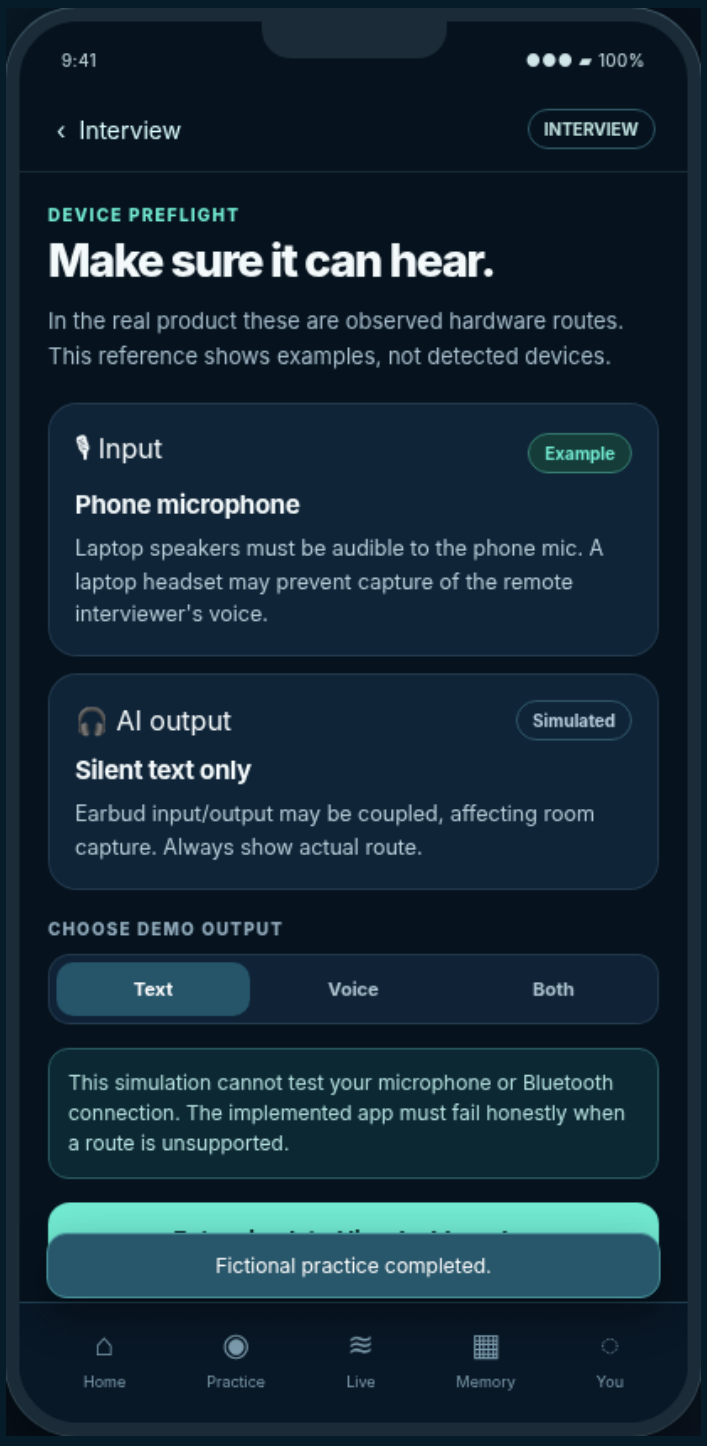

A conversational interviewer with thinking time and follow-up depth.

06 Eligibility & consent

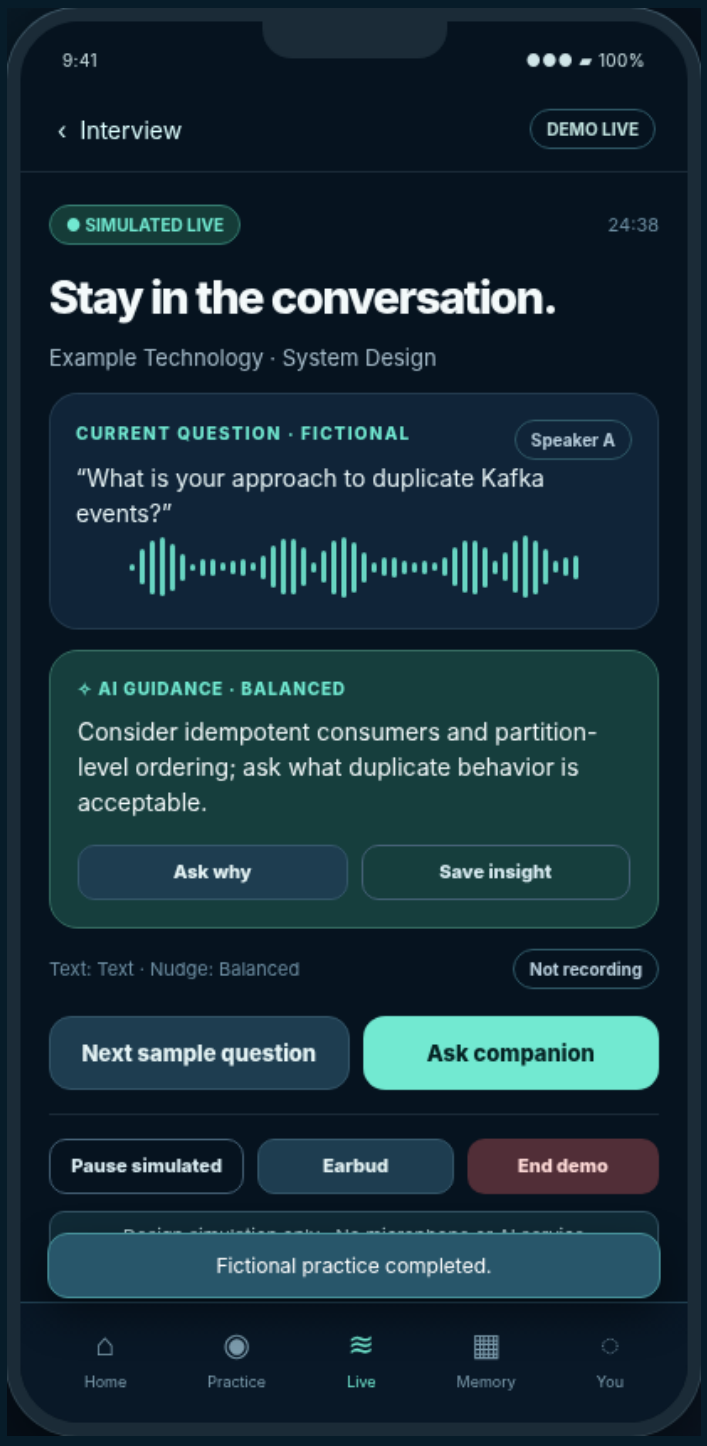

Independent AI/recording authorization gates.

Visual interaction reference, not a production mobile application or live audio capture.

07 Device preflight

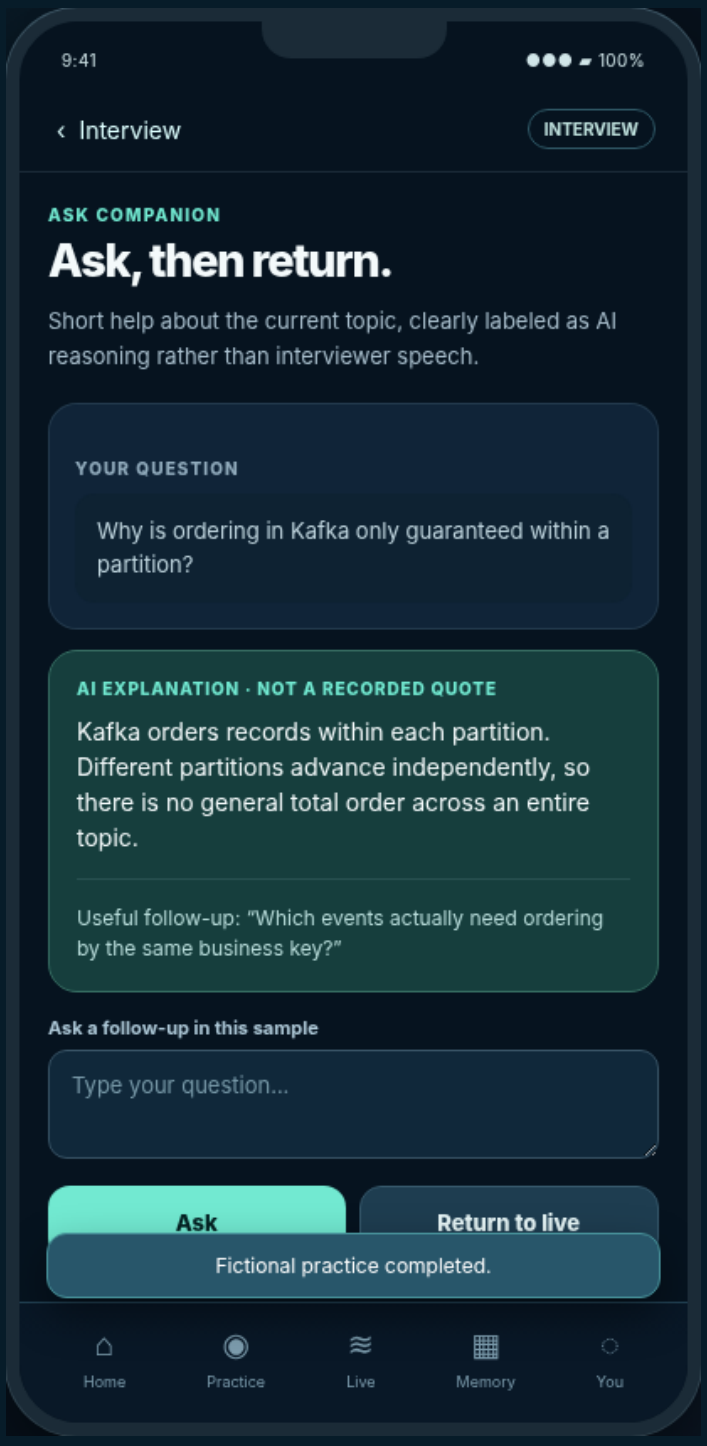

Actual input/output routing before a real session.

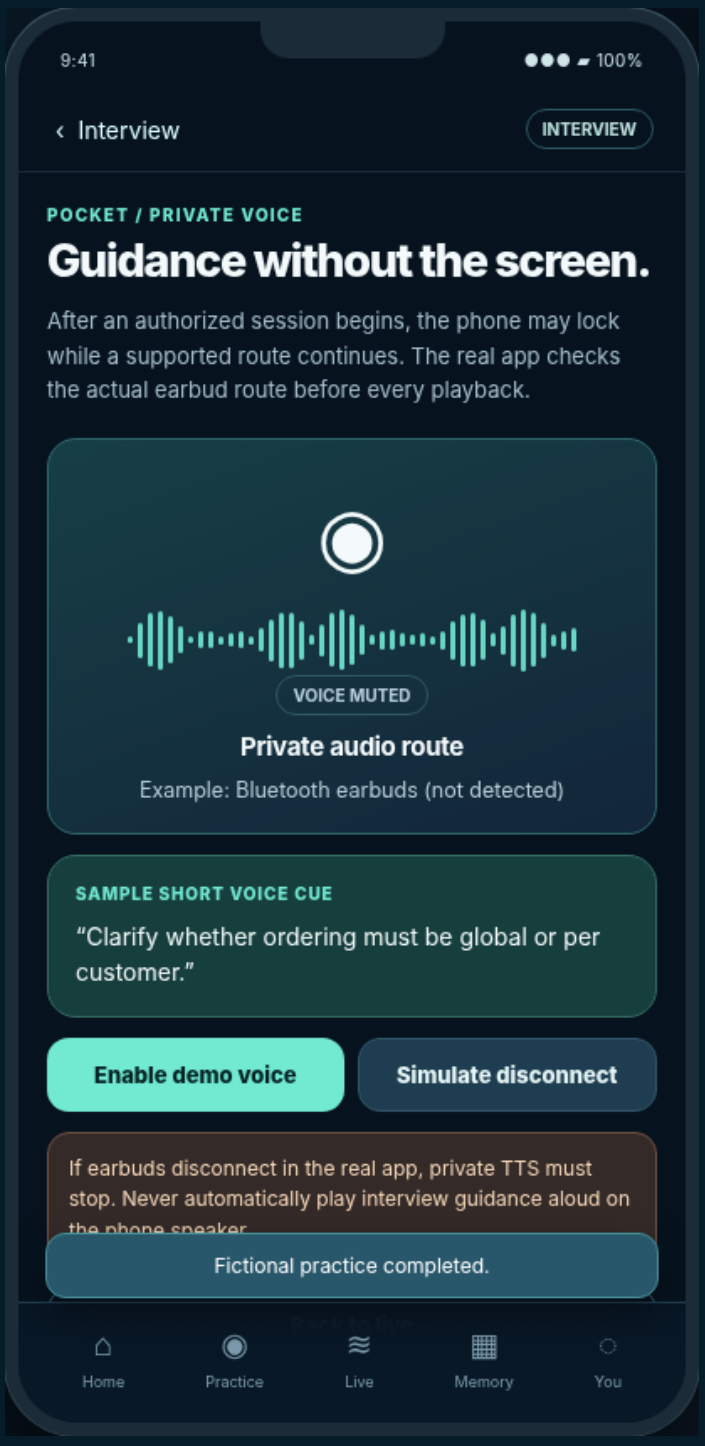

08 Live Focus

One glanceable live insight, with recording status always truthful.

Visual interaction reference, not a production mobile application or live audio capture.

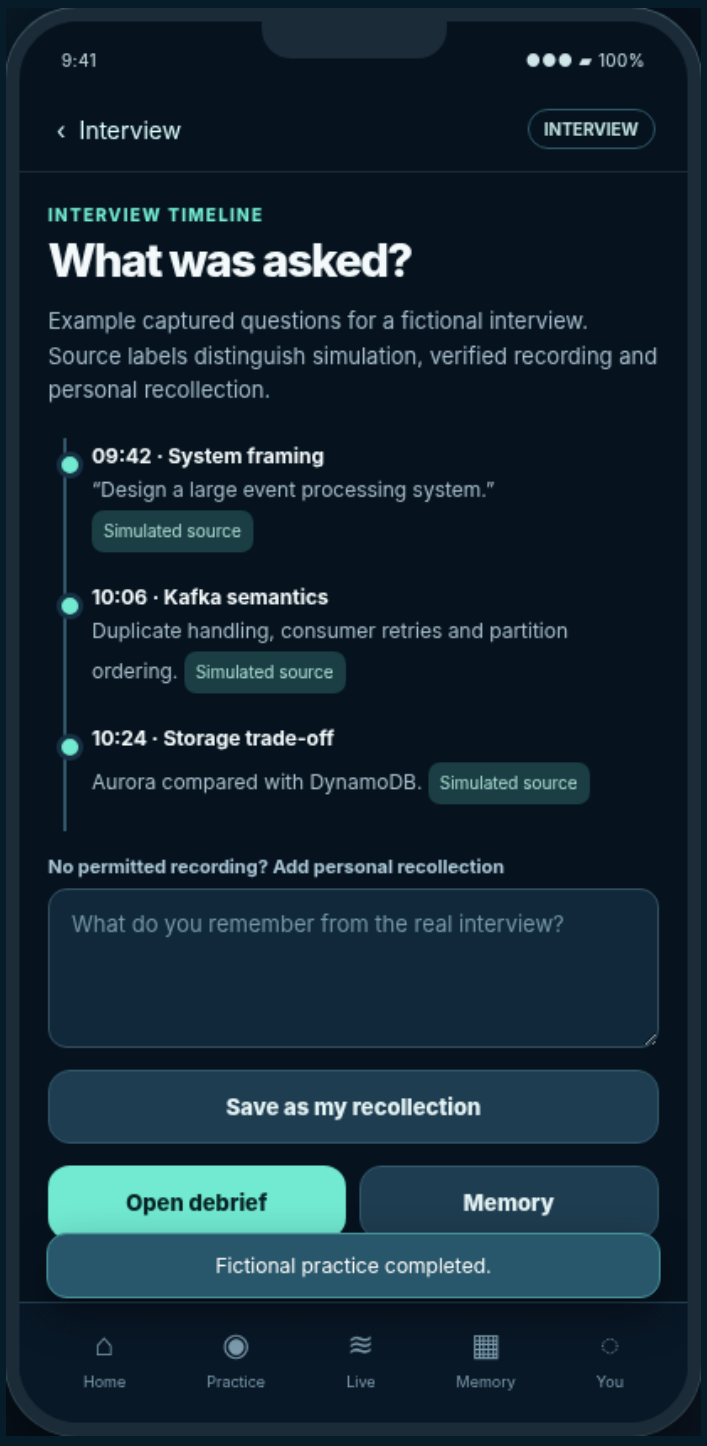

09 Ask Companion

Short contextual explanation; distinguish source from AI guidance.

10 Pocket Voice

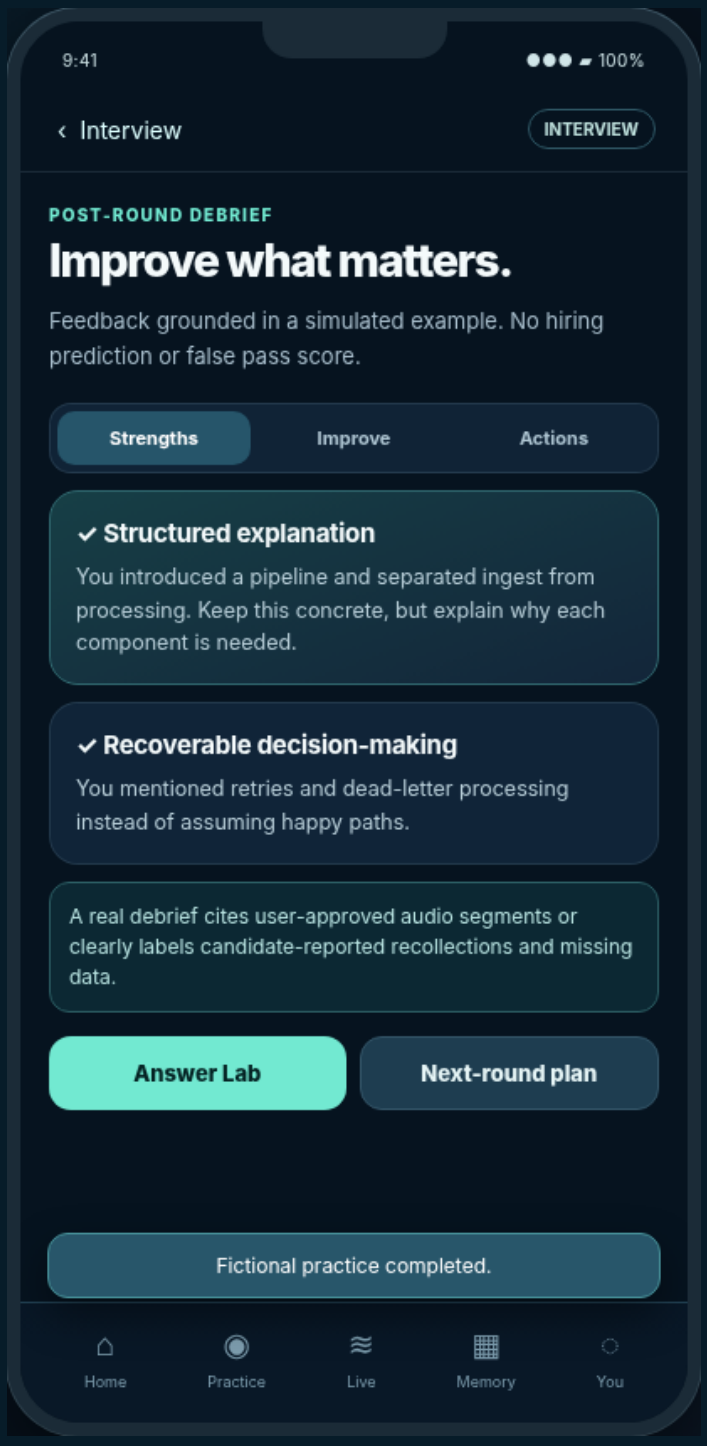

Fail-closed private earbud guidance with actual route checks.

Visual interaction reference, not a production mobile application or live audio capture.

11 Evidence timeline

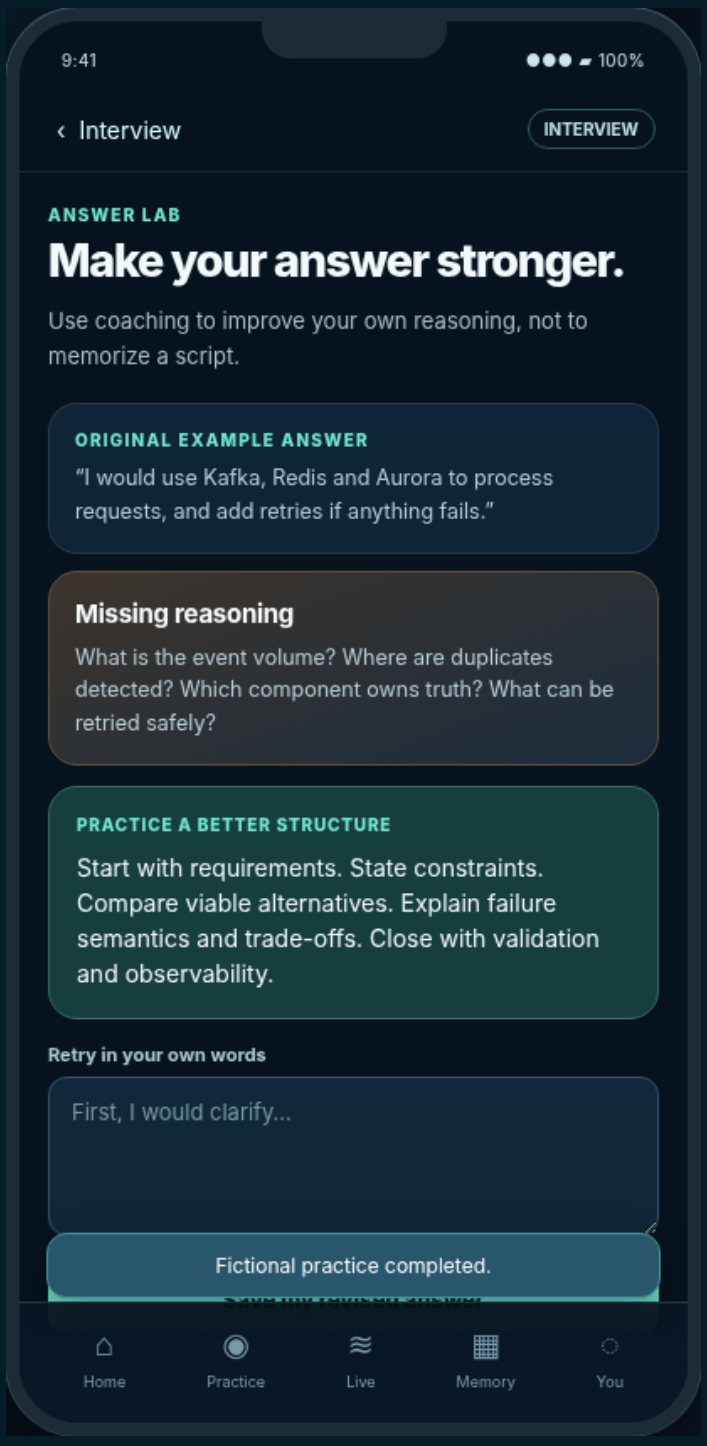

Questions and gaps grounded in permitted evidence.

12 Interview debrief

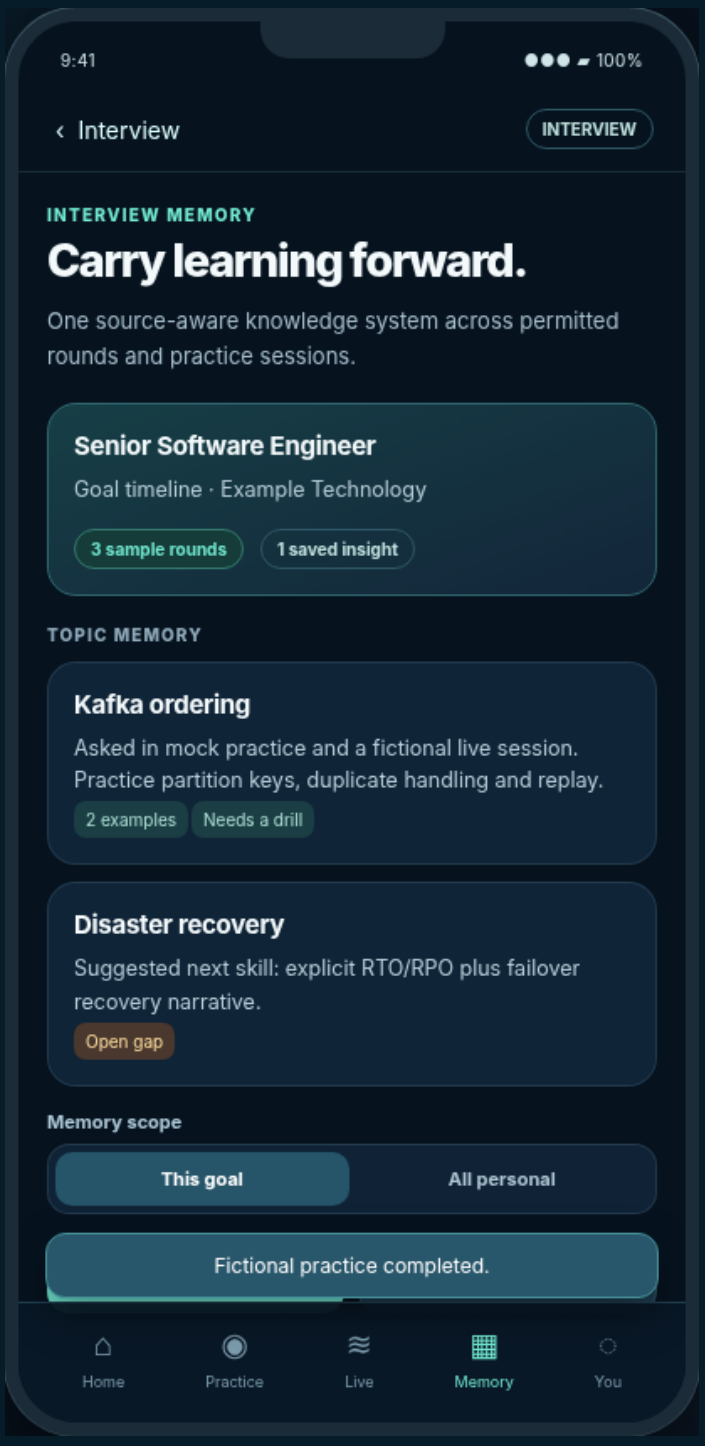

A few precise improvements, not a fake hiring score.

Visual interaction reference, not a production mobile application or live audio capture.

13 Answer Lab

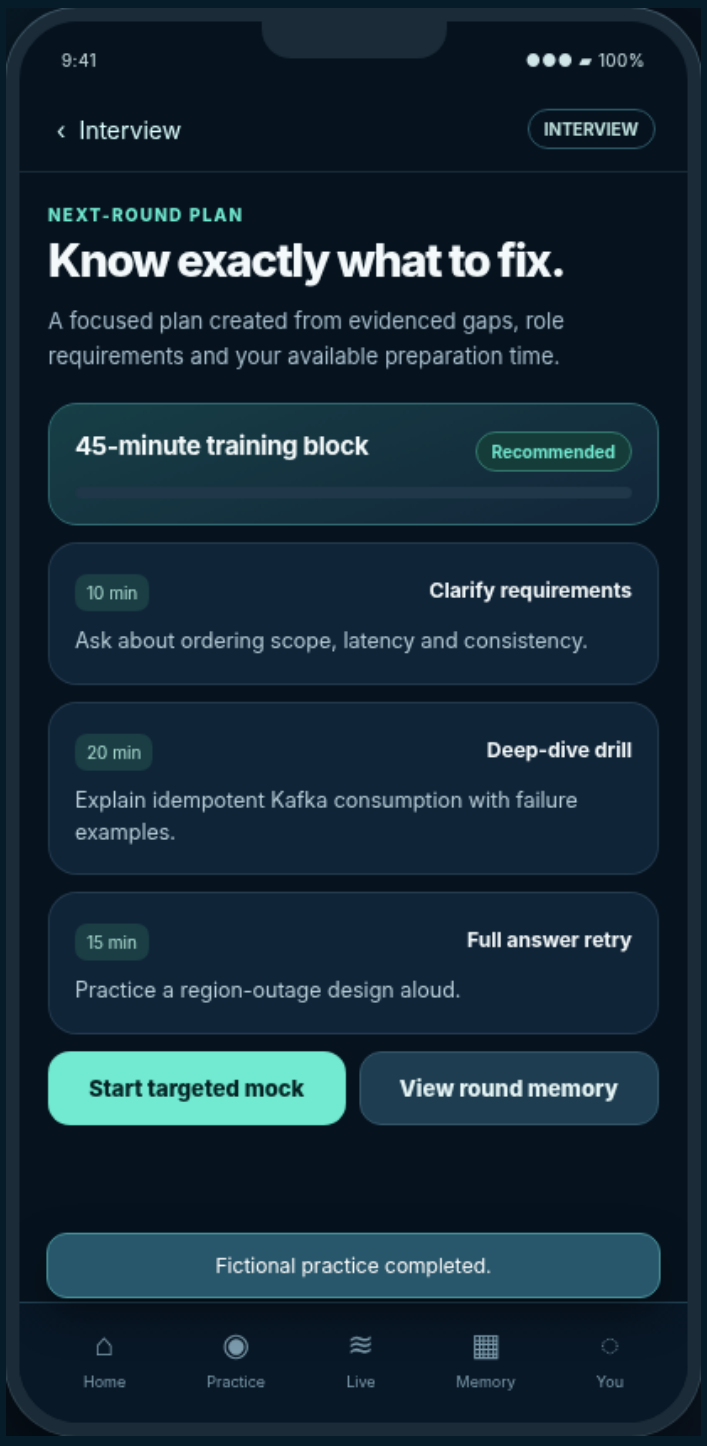

Help the candidate repair their own reasoning.

14 Round memory

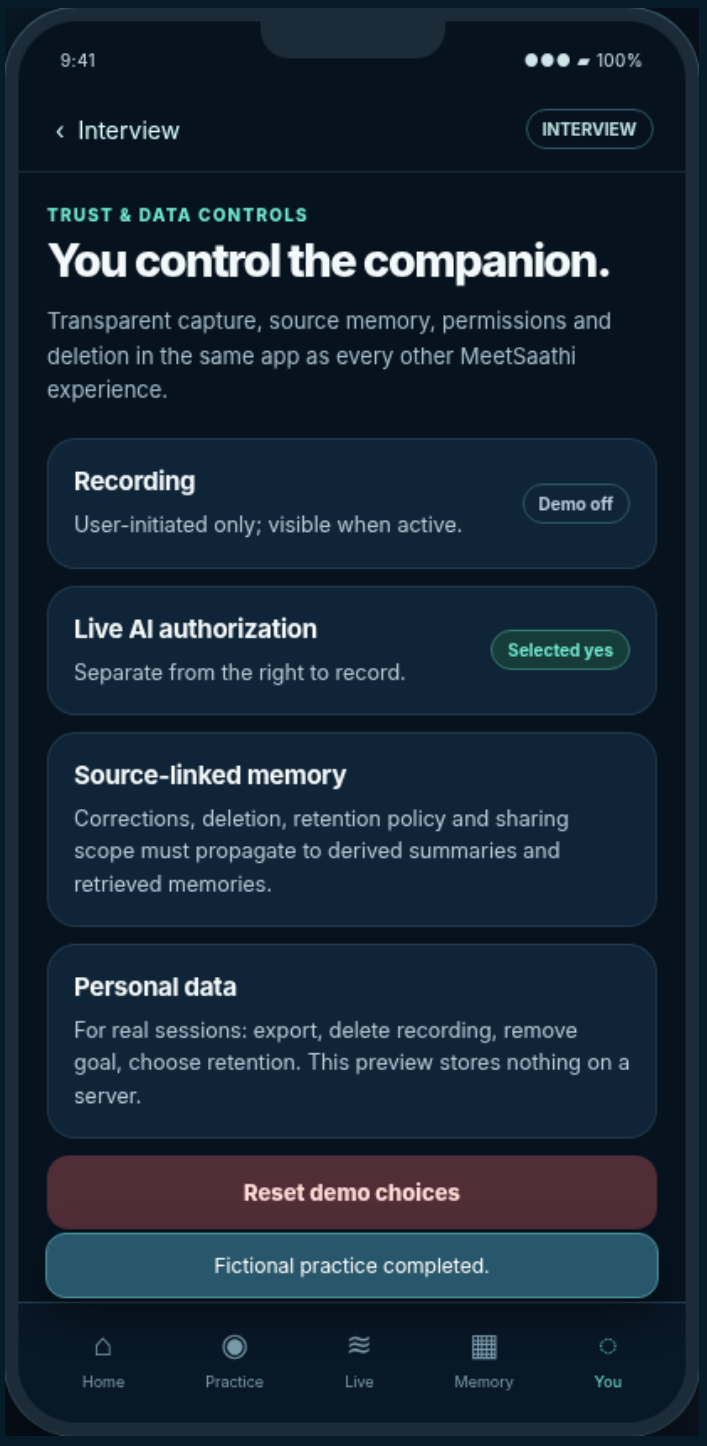

Trustworthy progress across rounds and sources.

Visual interaction reference, not a production mobile application or live audio capture.

15 Next-round plan

Practice tasks driven by prior evidence.

16 Trust center

Visible retention, consent, export and deletion controls.

Visual interaction reference, not a production mobile application or live audio capture.
